

The **Centre for Renewable and Sustainable Energy Studies** is located on the 4th floor of the Knowledge Centre at Stellenbosch University, Faculty of Engineering. The GPS coordinates are: 33°55'47.5"S; 18°51'56.8"E.

How to find us:

1. An access code will be provided via email. If you do not receive a code, please follow up with the person you are visiting.
2. This code is used to open the boom to the visitors parking (Entrance 5) in front of the General Engineering Building. See the map below.
3. From the parking, follow the red arrow on foot, walking through the cafeteria (The Chalk Board). See the photo below. The main entrance of the General Engineering Building is access controlled, so this is an easier route.
4. Turn right shortly after exiting the cafeteria building, entering into the Knowledge Centre. See the photo below. If you get lost, ask for the Engineering Library – we are in the same building.
5. Take the lift or the stairs to the fourth floor where you will find us. Ring the door bell and the receptionist will welcome you in.
6. If you run into any problems, kindly phone the person you are visiting or our offices on 021 808 4069.
