

CENTRE FOR RENEWABLE AND SUSTAINABLE ENERGY STUDIES

THE 2nd WORKSHOP ON OCEAN ENERGY *with a focus on* **Wave and Ocean Current Energy**

The second South African workshop on *Ocean Energy* with a focus on *Wave and Ocean Current Energy* will be held in the Western Cape on **Friday 18 September 2009** at the Skilpadvlei Conference Centre near Stellenbosch. The workshop is hosted by the Centre for Renewable and Sustainable Energy Studies with support from the South African National Energy Research Institute (SANERI).

The aim of the Workshop is to bring together representatives from the private and public sectors to share information on the current state of affairs in South Africa and the world regarding the harvesting of energy from the oceans. The outcome of the Workshop will be a roadmap for the next few years that can guide the development of this industry in South Africa.

Everyone with an interest in the development of an Ocean Energy Industry in South Africa is welcome to attend. In particular should companies positioning themselves to harvest energy from the oceans, public officials concerned with energy, Climate Change and economic development, researchers and technology providers, and financiers be represented to ensure that all interest groups' concerns are aired and included in the discussions.

Registration will start at 08h00 and the proceedings at 09h00.
There will be a small reception at the end of the day to facilitate further networking.

The workshop will be preceded by a one-day short course:
Introduction to Wave Energy Conversion.
(For more information contact Jos Liebenberg (jlh2@sun.ac.za))

If you want to make a presentation of your efforts in the field please contact Jos Liebenberg (jlh2@sun.ac.za) urgently, but not later than 28 August 2009 with a brief description of the topic and content of the presentation.

The registration fee for the Workshop is R 500 (VAT Incl.) per delegate which includes coffee, tea and lunch. Please register early! From Friday 28 August 2009 a late registration fee of R 800 (VAT Incl.) will apply.
